Scrubber Dryer Refill Systems

Speeding up the cleaning of critical areas

For keeping on top of virus control, floor cleaning must be performed with greater regularity, making SEKO's fast scrubber dryer refilling systems an invaluable partner to the cleaning operative. Robust and reliable, these systems are simple to use and save precious time by quickly refilling scrubber dryers to ensure surface hygiene is maintained.

Application

- Facilities Management
- Airports
- Supermarkets
- Hospital
- Warehouses

ProFill Premium

Quick refill system with rinse option

ProFill Premium is a chemical dispensing system that mixes constantly and automatically the right amount of chemicals to refill your scrubber dryer machine by using a delivery gun.

Designed with the busy cleaning operator in mind it is focused on simplicity in use quick to connect and easy to install, while helping reduce operational costs.

Features

- Function refilling & rinse
- PVC cover: smooth, ergonomic and robust
- High flow discharge gun
- Hose rack incorporated
- Installation kit included and complete with mounting and suction accessories, inlet hose, discharge hose, lance and tank holder

ProFill

Max temperature:	50°C
Pressure:	from 2 - 6 bar
Flow rate:	15 l/m
Dilution ratio:	from 0.2% - 16%

Advantages

- Easy to install: no needs of special tools
- Quick couplers for a greater versatility
- Reduced maintenance thanks to the Blue Venturi Insert: no need to disassemble the whole system
- Smart solution to refill the scrubber machines thanks to the white plastic chemical resistant dispensing gun
- Available with rinse position (supply of clear water only)

ProFill

Easy to use refill system

ProFill is a chemical dispensing system that mixes constantly and automatically the right amount of chemicals to refill your scrubber dryer machine by using a delivery gun. It has been also designed to be HACCP compliant, with a smooth, ergonomic and robust outer case.

Features

- Function refilling and rinse
- PVC cover: HACCP compliant, smooth, ergonomic and robust
- High flow discharge gun
- Hose rack incorporated
- Installation kit included and complete with mounting and suction accessories, inlet hose, discharge hose, lance and tank holder

ProFill Premium

Max temperature: 50°C

Pressure: from 2 - 6 bar

Flow rate: 15 l/m

Dilution ratio: from 0.2% - 16%

Advantages

- Easy to install: no needs of special tools
- Quick couplers for a greater versatility
- Reduced maintenance thanks to the Blue Venturi Insert: no need to disassemble the whole system
- Smart solution to refill the scrubber machines thanks to the white plastic chemical resistant dispensing gun
- Available with rinse position (supply of clear water only)

ProFill Tower

The smart refill system for auto scrubbers

ProFill Tower is a high flow chemical dispensing system that mixed constantly and automatically the right amount of chemical to refill your scrubber dryer machine. With a direct connection to the water source, it provides a gravity fed solution where no electric power or compressed air needed. It has a reduced maintenance requirement thanks to the blue venturi insert which avoids having to disassembled whole system.

It offers a smart solution to refill scrubber dryer machines thanks to the plastic ball valve and the 2" discharge hose supported by 15 different dilutions can be easily chosen, using the colour coded tips.

Features

- Function quick refilling
- Tank capacity: 320 liters
- Works without any electric power
- 1 chemical product version: product and water are automatically mixed by the Venturi

ProFill Tower

Flow rate:	200 l/m
Dilution rate:	0.4 -20% @ 3bar

Advantages

- Ready-to-install system
- Connected directly to the water supply, it is automatically refilled with water and by fall fills small and large scrubber machines
- Smart solution to refill the scrubber machines thanks to its plastic ball valve and the 2" discharge hose
- Ability to choose between 15 different dilutions thanks to the color coded tips. Easy to insert into the non-return valve.
- Automatic switch off by a float valve or a magnetic valve
- EPDM check valve with spring in hastelloy.

Your Choice, Our Commitment

In the modern Globalised world, being a privately owned Company has significant benefits especially for our Customers, our Partners. For over 40 years, SEKO has developed a Global organisation able to take the longer view, manage the pressure of the now, and to plan for the long term, delivering true Partnership for our Customers, with transparency and mutual respect for each other.

Whether it's for our renowned flexibility, our attention to detail, the high-quality products, or just the way we do business, we understand that it's Your Choice to do business with us. It is Our Commitment to fulfill your needs wherever you, our Customers are.
